THE STAY

What we do

The same standard, every day, for every dog.

Your dog stays in a clean climate controlled room that is cleaned and sanitized twice a day.

Wellness checks on your dog's health, comfort and appetite throughout the day.

Fresh water is checked and refilled all day, every day of the stay.

Feeding follows your dog's own plan and is checked after every meal.

A bath once a week on longer stays, and always before your dog goes home.

At least one video update sent to you every day of the stay.
