

THE PLACEMENT EXPERIENCE

Built for you.
Loyal by nature.

Chosen with care

Suitability is confirmed, never assumed.

Every placement starts with understanding your household. Who lives there, how you live and what you need.

Not every dog qualifies. Dogs are selected for temperament and stability before training begins.

Temperament evaluation and honest matching to your home.

Genetic testing, full veterinary records and pedigree papers, handed over with every dog.

Breed recommendation and sourcing when the right dog is not already here.

Availability is limited. A dog can be found and raised on request.

HOME AT 6 TO 8 MONTHS

Trained Puppy

THREE MONTHS OF TRAINING

For families who want to raise a young dog with the hardest months already done.

WHAT YOU GET

Socialized with people, dogs and new environments. Calm and confident.

House trained. Clean habits, crate calm and settled nights.

Core obedience built full-time by our trainers. The commands daily life actually needs.

The accidents, the chewing and the sleepless months, already handled.

WHAT TO EXPECT

- An adjustment period in your home. The bond builds over weeks, not on day one.
- A young dog still growing. Adolescence will come, and the foundations are built to carry it.

Raised at Cairo Canine Club from an early age, or sourced by request.

HOME FROM 12 MONTHS

Trained Companion

ADVANCED RESIDENTIAL TRAINING

For homes that want to skip puppyhood entirely and need reliability from day one.

WHAT YOU GET

-  Advanced obedience with off-leash reliability, in the places you actually go.
-  Calm at home, with feeding, rest and walking routines already built.
-  Stable and social with people and other dogs, at home and out in the world.
-  The puppy stage already done. No chewing months, no training year.

WHAT TO EXPECT

- An adjustment period in your home. The bond builds over weeks, not on day one.
- Reliability holds when the routines and cues your dog knows are maintained.

HOME AT 18 TO 24 MONTHS

Protection Dog

CUSTOM SELECTION · CUSTOM TRAINING

For select households. Placed with care, and a family dog first.

WHAT YOU GET

-  Everything the Trained Companion is, with protection built carefully on top.
-  Selected for temperament and genetics before the work begins. Not every dog qualifies.
-  Trained to deter first. Engages on command and stands down on command.
-  Calm and social with children and guests at home. A family dog before anything else.

WHAT TO EXPECT

- The dog works through its handler. It is not an alarm system you leave switched on.
- Reliability holds when the routines and cues your dog knows are maintained.

Selection and duration are set in consultation.

THE HANDOVER

The last mile

The dog arrives prepared. The handover makes it yours.

- 1 Before handover, two mandatory sessions at Cairo Canine Club. You work the commands beside the trainer and learn the exact cues and timing your dog responds to.
- 2 Day one. Orientation at Cairo Canine Club. Obedience, routines, feeding and crate.
- 3 Day two. Public and social scenarios. Real environments, distractions and recall.
- 4 Day three. At your home. Boundaries, feeding zones and family routines, set where they matter.
- 5 Every member of the household learns to handle the dog.

Extra handover sessions are available for a fee if you would like more time with the trainer.

GOOD TO KNOW

Before you enquire

The details that make a placement work.

It starts with a **conversation**. A call or WhatsApp about your household and what you are looking for.

Availability is limited. A placement is reserved with a non-refundable fee.

Three **follow-up calls** in your first eight weeks home, and WhatsApp support after every placement.

Your **commitment** to the routine continues after placement. The dog will mirror what is reinforced at home.

Commands in **English**, or in Arabic upon request.
